11.8.2 Application for registration of an animal born as a result of an unsupervised service occurring when the dam was running on

pasture or in paddock with the sire shall not be accepted unless there has been compliance with regulations governing pasture/paddock breeding.

Multiple Births	11.8.3	An application for registration of a female animal which is the product of a multiple birth shall state the number and sex of the other animals born with the animal to be registered and such animal may not be registered unless it is established that the animal is not a freemartin.
Anomalies	11.8.4	The Board shall determine what inherited characteristics are considered undesirable and shall define the nature, type and form of the information concerning such characteristics to be kept on file by the Association and the nature and extent of publication of such information.
Private Herd Register Necessary	11.9.1	It shall be the duty of each member or other person registering cattle in the herd book to make and retain for a minimum period of fifteen (15) years, in a record system, a complete and consecutive record showing date, name and number of every animal served, the name and number of the sire used, and the date of calving, ear tag number and sex of calf.
Records May Be Verified	11.9.2	The Secretary may, at any time, investigate or cause to be investigated, examined, identified or parentage verified, any animal or herd of registered Holstein cattle and may examine the breeding and herd records maintained, for the purpose of verifying applications and records on file in his office, for the purpose of verifying ownership, or for the purpose of investigating other matters in which the Association may be interested.

Guarantee of Owner and Applicant	11.10.2	Every application tendered to the Association for the registry of an animal shall be taken as a guarantee of the owner and the applicant that the animal is eligible and that all matters stated in the application are true. It is the obligation of the owner, upon receipt of the certificate from the Association, to verify the contents and to report immediately any error to the Secretary.
A.I. & E.T.	11.10.3	No animal resulting from the use of artificial insemination or embryo transplant is eligible for registration unless:

	11.10.3.1	the animal is otherwise eligible for registration in accordance with the By-laws, rules and regulations;
	11.10.3.2	the semen shall have been collected, frozen, labelled, imported (if applicable), distributed and used, and insemination shall have been provided, all in accordance with the rules established by the Board; and

Prefix Names	11.14.1	The Association will designate for each member upon the Certificate of Membership a unique prefix. Such prefix shall be reserved for the exclusive use of the member and shall be used as the first word of the name of all offspring resulting from a service to a female owned at the time of service by such member. A designated prefix holder may extend the use of the designated prefix to members of the immediate family, for the naming of offspring resulting from a service to a female owned by family member, when said service takes place while the female was part of the prefix holder's herd. In order to be eligible for designation and extended prefix use, all parties must be members of Holstein Canada. It is the responsibility of the designated prefix holder to advise the Secretary in writing of the extended use of such prefix and to advise when a member of the immediate family no longer qualifies as an authorized user of the prefix.
	11.14.2	Where a female is owned by more than one member, the prefix of any one of the owners may be used in naming resulting progeny.

	11.14.3	The Board may retire a prefix in the event that the prefix is not used for the purposes of registering any animal for a period of fifteen (15) years after the member entitled to its use ceases to be a member and such retired prefix may thereafter be designated for use by another member.
How Recorded	11.15.1	Subject to Section 11.15.2, all animals born in Canada shall be registered as owned by the owner of the dam at the time of birth.
	11.15.2	Where a calf resulting from embryo transfer has been sold prior to birth and a transfer of ownership duly recorded by the Association, such calf may be registered in the name of the owner. The prefix in the name of the calf and the person designated as breeder of the calf shall however be governed by Sections 11.14.1 and 11.14.2.
Investigations and Corrections	11.16.1	If, after the registration of an animal in the herd book, doubt arises as to the propriety of such registration, the Secretary may, and upon the instructions of any director shall, cause the matter to be investigated.
	11.16.2	Upon the completion of such investigation, the Secretary may request that a Committee of the Board hold a hearing to enquire into the matter.
	11.16.3	Notice of such hearing, stating the date, time and place of the hearing and the nature of the enquiry to be made, shall be given in a manner that has been determined by the Board, addressed to the present and previous owners of the animal and its progeny according to the records of the Association at the addresses shown thereon, at least six (6) weeks prior to the scheduled date of the hearing.
	11.16.4	When requested by the Secretary, the Committee of the Board shall hold a hearing and enquire into the matter and, if it shall be found that the animal has been improperly registered, and correction is not possible, the Board shall cause the registration and all registrations dependent thereon to be expunged.
	11.16.5	Any person financially interested in the validity of the registration may appear at the Committee hearing in person or by counsel and with or without witnesses.
	11.16.6	The Secretary may retain and instruct counsel and may appear with or without counsel or witnesses at all the Committee hearings.

- 11.16.9 Notwithstanding the other provisions of this Section, the Secretary may cause a registration to be expunged, if he has the consent of the registered owner(s) of the animal and its progeny, without a hearing.
- Form of Application 11.17 An application for registration or transfer shall be made in such form and containing such information and guarantees as the Board of Directors shall prescribe.
- Transfer of Ownership — Duty of Seller 11.18 Upon the sale of an animal as registered or purebred, it is a responsibility of the seller to ensure a duly transferred certificate, issued by the Association, is provided to the buyer. A seller shall initiate the transaction by submitting a transfer in an approved manner with the Association and ensuring arrangements are complete for the payment of any necessary fees. In the event that the buyer and seller intend for a sale agreement to supersede this protocol, the responsibility for payment of the transfer fee and responsibility for submitting a transfer may be established amongst the parties themselves. In such case, proof of the buyer-seller agreement shall be made available to Holstein Canada upon request.
- 11.18.1 A transfer of ownership of any animal registered in the herd book shall be recorded on application to the Association.
- Cancellation of Certificates 11.18.2 A recorded transfer may be cancelled by the Secretary upon the order of the Board, or on application of both parties to the transfer, or on application of one party on notice to the other, in the case of an error or mistake.
