Holstein Canada and the Canadian Guernsey Association Announce Field Service Collaboration

Brantford and Guelph, ON – Holstein Canada and the Canadian Guernsey Association (CGA) are very pleased to announce cooperation between the two associations for Field Services provided to Guernsey owners in Atlantic and Western Canada.

CGA has long been aware of the high caliber of Holstein Canada’s staff, delivering exceptional service to dairy producers across the country. CGA approached Holstein Canada about cooperation in the field so that they could provide expanded services to Guernsey owners in the four Western and four Atlantic provinces. Holstein Canada quickly responded in the affirmative.

Holstein Canada Field Service Business Partner Morgan Sangster will be working with Guernsey owners in Manitoba, Saskatchewan, Alberta and British Columbia. Field Service Business Partner Natasha McKillop will provide the same services in New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland. Russell Gammon of the CGA will continue to provide services in Ontario and Quebec.

The agreement signals another great example of industry partners working together to serve the needs of dairy producers across Canada.
