

CAREERS

Mobile Software Developer

Brantford, ON

HOLSTEIN CANADA is the largest dairy breed association in Canada, serving our membership of more than 10,500 active dairy producers since 1884. With dynamic leadership and a clear vision, we are eagerly embarking on an exciting, tech-friendly future. We offer a strong team-oriented workplace, supportive leadership, and the chance for you to develop along with us.

YOU are innovative. You tackle challenges head-on. You see the big picture. You are deadline driven and detail-oriented. You have a knack for creating interesting mobile experiences that excite users. You are energized by having a productive, cohesive team around you.

In this role, YOU WILL:

- Work as a mobile developer in both native Android & iOS ecosystems
- Work with analysts, developers and users to design, build and maintain mobile software solutions
- Build mobile apps capable of working in environments with and/or without network connectivity
- Build mobile apps for internal staff and external customers

YOU OFFER:

- Post-secondary education in computer science or related field and/or equivalent work experience
- 5+ years building native mobile applications in Android & iOS
- Good understanding of design patterns for Android & iOS
- Strong understanding of the Android/iOS SDK, UI/UX best practices and developer tools
- Android specific knowledge: Kotlin, RxJava, AndroidX (Data Binding, Lifecycles, Room, ViewModel), Dependency Injection (Koin and/or Dagger 2), SQLite, ML Kit a bonus
- iOS specific knowledge: Swift, SwiftUI, Core Data, SQLite, Core ML a bonus
- Experience with Bluetooth (Classic and/or Low Energy stacks)
- Experience shipping apps to the Google Play & Apple App Store
- Experience consuming RESTful API's
- Proficiency with a VCS (preferably SVN)
- Desire to learn and explore new technologies
- Ability to communicate professionally in English (written & verbal)

ASSETS:

- Experience building apps using various cloud component/service offerings from either Azure, AWS or GCP
- Experience working with Azure DevOps (on-premise and/or cloud)
- Experience using gRPC / Protocol Buffers
- Experience setting up automated CB/CI/CD pipelines (preferably using Azure DevOps)
- Relevant personal projects & open source work
