.Net Software Developer
Brantford, ON

HOLSTEIN CANADA is the largest dairy breed association in Canada, serving our membership of more than 10,500 active dairy producers since 1884. With dynamic leadership and a clear vision, we are playing a key role in agriculture's current digital transformation. We offer a strong team-oriented workplace, work location flexibility, supportive leaders, and the chance for you to contribute to some really interesting projects.

YOU tackle challenges head-on. You see the big picture but still enjoy the details. You are deadline driven, responsible and accountable. You are an avid problem solver who brings innovative, efficient solutions. You are energized by contributing to a high-performing, cohesive team.

In this role, YOU WILL:
- Become part of a great technology team designing, building, and maintaining innovative software solutions for the Dairy Industry
- Establish individual work effort estimates to complete assigned work packages
- Design, write, modify, integrate, unit test and document software enhancements
- Participate in regular status meetings and report on progress of assigned tasks
- Identify and communicate technical problems, processes and solutions to troubleshoot application issues

YOU OFFER:
- A passion for software development and making an impact through technology solutions
- A strong desire to learn and explore new technologies
- Commitment to roll up your sleeves and get the job done
- Bachelor's Degree in Computer Science or similar, or equivalent work experience
- 5-7 years' overall IT software development experience
- Ability to communicate professionally in English (written & verbal)
- Demonstrated experience with proven success in
    - Backend development using .NET Framework/Core (C#)
    - Building and consuming WCF Services and RESTful APIs
    - Designing and managing enterprise-scale databases using MS SQL Server
    - Writing and tuning SQL queries, stored procedures, and user-defined functions
    - UI development using jQuery, Razor, Bootstrap, CSS etc.

BONUS POINTS FOR:

- Native mobile app development (React Native, Kotlin/Swift/Xamarin)
- CB/CI/CD pipelines (Azure DevOps/CCNet)
- Cloud technologies (Azure/AWS/Google)
- Containerization (Kubernetes/Docker)
- Building real-time streaming data pipelines (Kafka)
- Building data lakes, data warehouses, data marts, cubes
- Distributing and communicating data using SSIS and SSRS
- Interactive data visualization tools (SSAS, Power BI)
- JavaScript Frameworks (React/Angular)
