

Registration for Holstein Canada

DelPro Users will need two Reports

Holstein Canada Registration

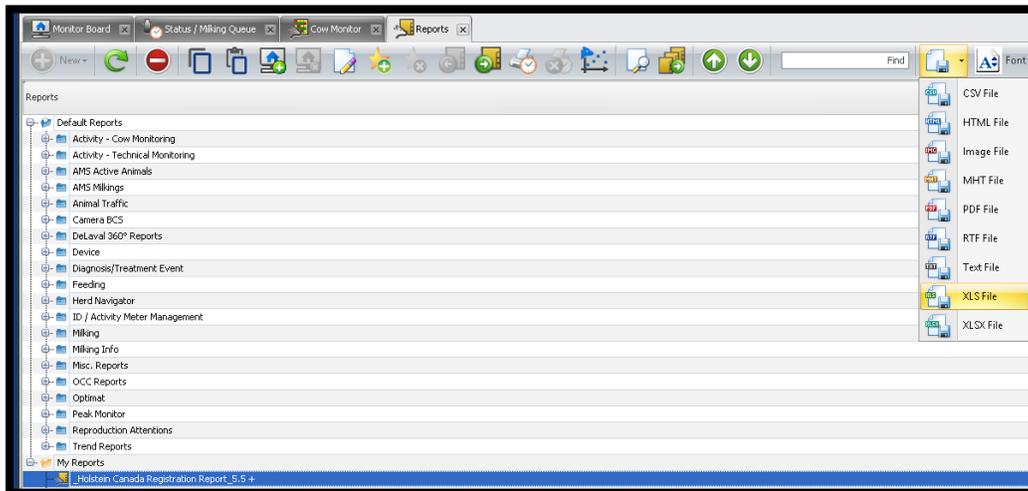

Inseminations Report (Found in Herd Event List)

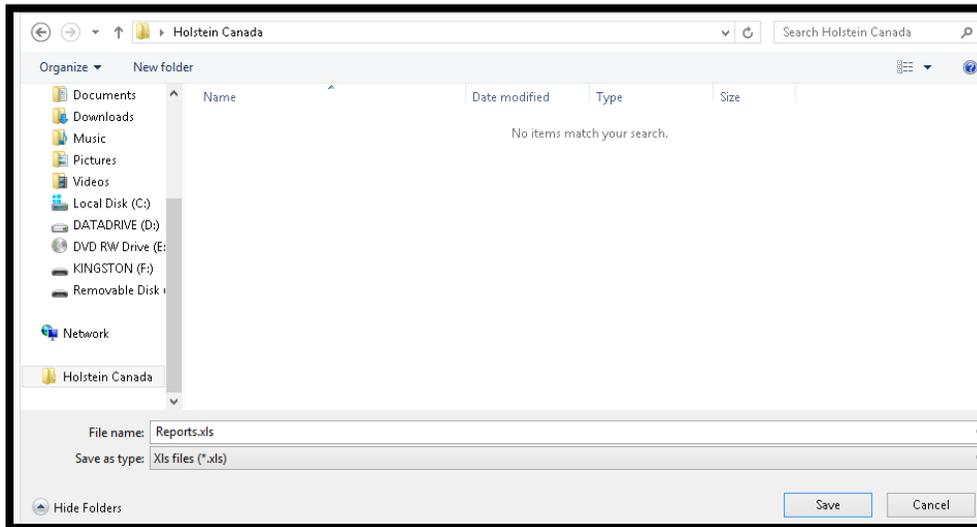

How Set up DelPro for Holstein Canada Registration

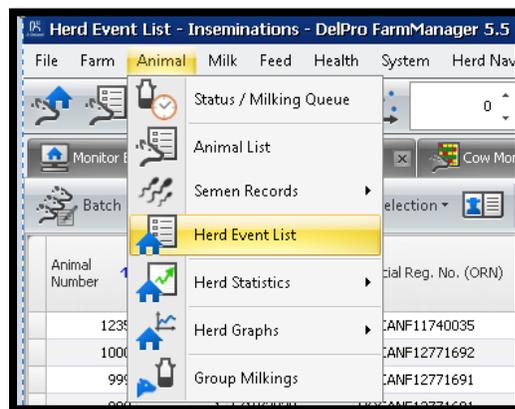

- ✓ Import Holstein Canada Registration Report_5.5 + (from your Local DeLaval Dealer or Holstein Canada Customer Service) into My Reports
- ✓ Ensure the report has the data loaded into it that is needed. If not work with your DeLaval Dealer. Dam's Number Column is only available in DelPro 5.5 and Higher. Consider updating to the latest software otherwise work with your dealer advisor.
- ✓ When it is time register the calves needed: Place the cursor on the Holstein Canada Registration Report and Click on the File Icon – select Excel – XLS.

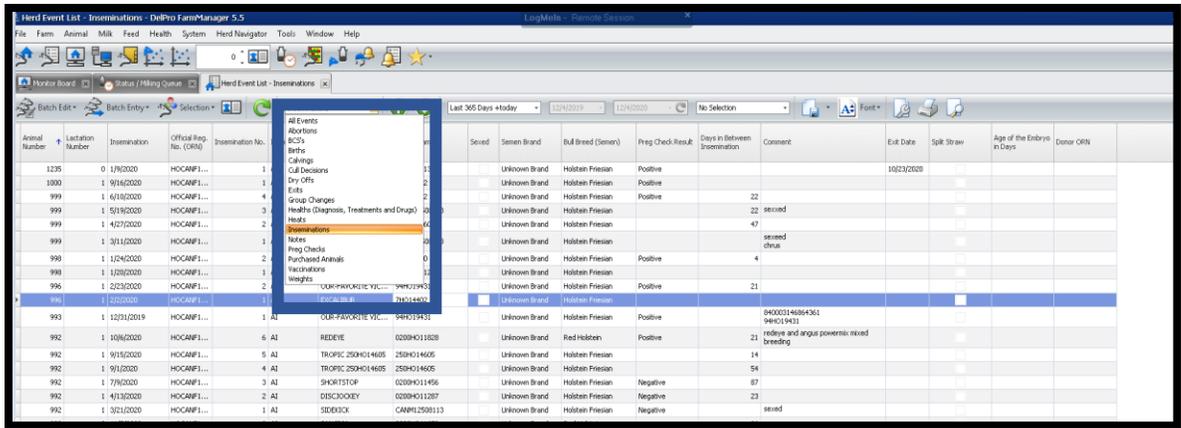

- ✓ Create a Folder Called Holstein Canada on the Desktop and Save to this Folder

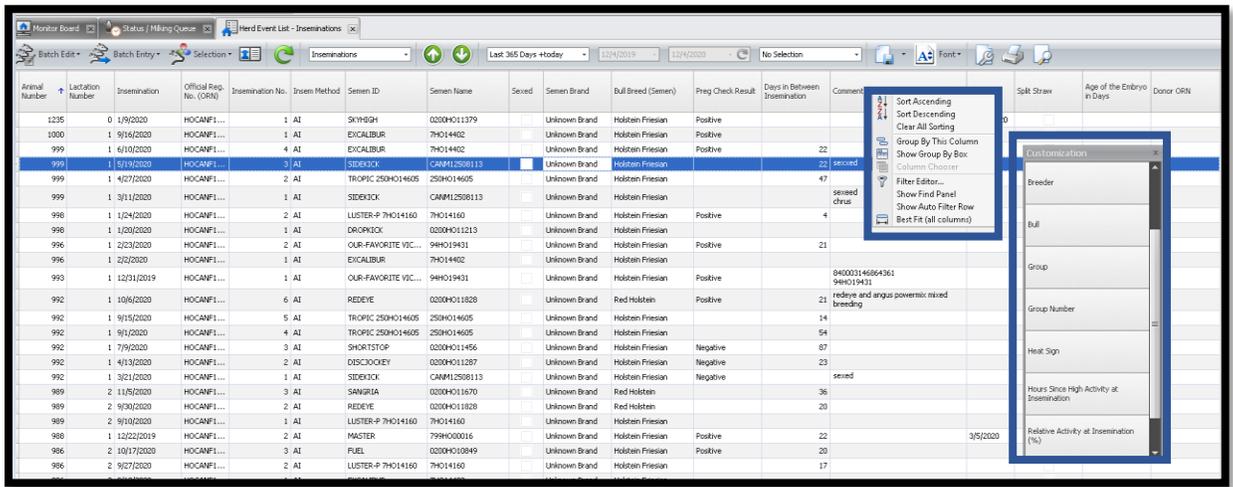

- ✓ Open the Excel Sheet on the Desktop or a Substitute Program (contact your DeLaval Dealer to guide you on a program to use) to adjust the data if necessary (work with your Holstein Canada Customer Service)
- ✓ Click on Animal – Herd Event List – Select Inseminations

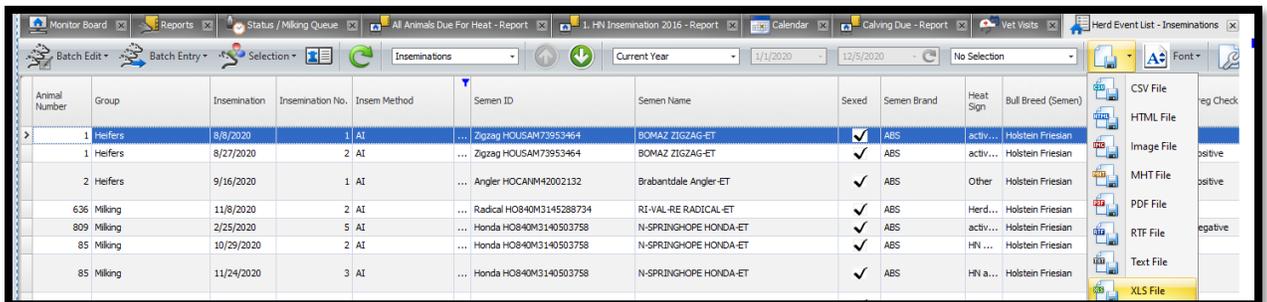

- ✓ Click on the Drop Down and Select Inseminations

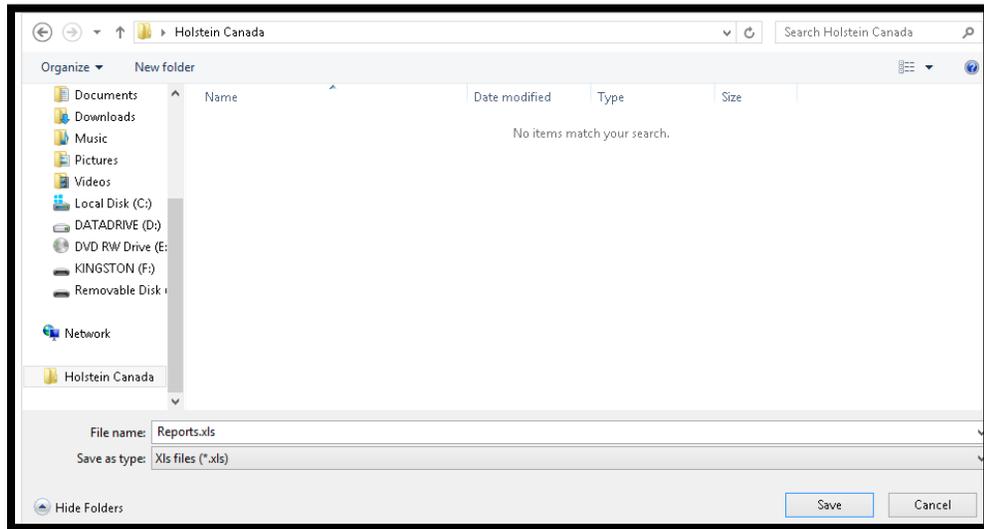

- ✓ To customize – right click at the top of a column that you do not need.
- ✓ Select Column Chooser
- ✓ Drag the column that is not needed into the Customization Box

- ✓ Click on File Icon

- ✓ Save in the Folder Called Holstein Canada (that you recently created) on the Desktop

- ✓ Open the Excel Sheet on the Desktop or a Substitute Program (contact your DeLaval Dealer to guide you on a program to use) to adjust the data if necessary (work with your Holstein Canada Customer Service)
- ✓ Attach both Excel (or similar Program) Reports to the following the email: Ereg@holstein.ca

OPTIONAL: include photos with your registrations. Please name the files according to herd management number and submit with the excel files.
