

CAREERS

Senior .NET Developer

Brantford, ON

HOLSTEIN CANADA is the largest dairy breed association in Canada, serving our membership of almost 9,200 active dairy producers since 1884. With dynamic leadership and a clear vision, we are building an exciting, tech-friendly future. We offer a strong team-oriented workplace that supports personal and professional growth, remote working opportunities, a comprehensive benefits package, and the chance to participate in meaningful projects for Canadian Dairy industry!

We are seeking an experienced and knowledgeable Senior .NET Developer to join our team. In this role, you will be responsible for architecting, building, and maintaining enterprise systems, external facing applications, and services using the .NET Framework(s) and Microsoft SQL. You will also play a crucial role in modernizing our existing applications and development operations by leveraging modern dev-ops and cloud technologies. If you are passionate about utilizing your expertise in C#, SQL, .NET, and JavaScript to deliver high-quality solutions, we want to hear from you.

YOU tackle challenges head-on. You see the big picture but still enjoy the details. You are deadline driven, responsible and accountable. You're more likely to say "How can we?" rather than "That's not my job." You are motivated by having a high-performing, cohesive team around you.

RESPONSIBILITIES:

- Utilize your broad knowledge of the .NET Framework(s) and Microsoft SQL to architect, build, and maintain enterprise systems, external facing applications, and services.
- Participate actively in team meetings, brainstorming sessions, and project discussions
- Assist in the modernization efforts of our existing applications and development operations by leveraging modern dev-ops and cloud technologies.
- Apply your expertise in C#, SQL, .NET, and JavaScript when building and maintaining MVC, WCF, and API projects.
- Design and document external facing APIs using best practices and common design principles to showcase your expertise in API development.
- Monitor, support, and debug core systems, services, and applications across multiple environments and servers.

REQUIREMENTS:

- 7-10 years of progressive experience architecting and implementing enterprise applications using C#, SQL, .NET.
- Commitment to learning about new industries and technologies.
- Expert level knowledge in the following technologies: C#, SQL, .NET, .NET Core, JavaScript.
- Proficiency in Azure DevOps CI/CD, API Manager, and App Services.
- Strong understanding of Windows Services, WCF, Web APIs, and MVC Web Applications.
- Experience with Entity Framework, Microsoft Identity, and Identity Server.
- Proficiency in version control systems such as SVN and Git.
- Familiarity with HTML/CSS and JavaScript frameworks (Bootstrap, Kendo UI).
- Experience in writing unit/integration tests.
- Experience working on small cross-functional, multi-product teams is considered an asset.

To apply for this position, please submit your resume and a cover letter highlighting your relevant experience to hr@holstein.ca by October 27, 2023.

We are an Equal Opportunity Employer and are committed to providing a barrier-free recruitment process. If you require accommodation any step in the process, we will work with you to meet your needs – simply contact a member of the HR team with your request. Thank you for your application to Holstein Canada. Due to the volume of applications, only selected candidates will be contacted.
