Software Developer
Brantford, ON

HOLSTEIN CANADA is the largest dairy breed association in Canada, serving our membership of more than 10,500 active dairy producers since 1884. With dynamic leadership and a clear vision, we are playing a key role in agriculture's current digital transformation. We offer a strong team-oriented workplace, supportive leaders, and the chance for you to contribute to some really interesting operational projects.

YOU tackle challenges head-on. You see the big picture but still enjoy the details. You are deadline driven, responsible and accountable. You are an avid problem solver who brings innovative, efficient solutions. You are motivated by being able to make an impact in a high-performing, cohesive team.

YOU WILL:
- Work as a **full-stack developer** using technologies in the Microsoft stack
- Work with analysts, developers and users to design, build and maintain software solutions
- Work as a back-end developer using:
    - ASP.NET Standard/Core (C#)
    - ASP.NET MVC/WebAPI & WCF (C#)
    - Entity Framework & Dapper
    - SQL Server, SSIS, SSRS & SSAS
- Work as a front-end developer using:
    - HTML5, CSS3 and JavaScript
    - CSS3 and extension frameworks (LESS, SASS, etc.)
    - 3rd party libraries such as: Telerik Kendo UI, Bootstrap & JQuery

YOU OFFER:
- Post-secondary education in Computer Science or similar, or equivalent work experience
- Solid development experience: Back-end and Database (5+ years), front-end (3+ years)
- Demonstrated experience with proven success in:
    - Creating rich user interfaces
    - Building and consuming RESTful APIs
    - Designing and managing enterprise-scale relational databases
    - Writing and tuning SQL queries, stored procedures, and user-defined functions
- Ability to communicate professionally in English (written & verbal)
- Desire to learn and explore new technologies

Experience with any of the following are considered distinct assets:
- Native mobile app development – Android (Kotlin) and iOS (Swift)
- Configuring CB/CI/CD pipelines
- Cloud technologies (Azure/AWS/Google)
- Containerization
- Building real-time streaming data pipelines
- Building data lakes, data warehouses, data marts, cubes
- Interactive data visualization tools
