

# proAction® Traceability 101

As the date to be compliant for traceability is just over a week away (September 1st), is just over a week away, we thought collecting all of the proAction Traceability resources into one location would be helpful. As you work to ensure your farm is compliant, most of your questions can be answered by reviewing the previous seven e-blasts, or referring to any of the resources listed here. If you still have unanswered questions, please send them to [Imarkle@holstein.ca](mailto:Imarkle@holstein.ca) and we will do our best to answer any remaining questions in our final e-blast next week.

Missed an e-blast, or want a PDF copy to keep for future reference? PDF versions of all eight proAction Traceability 101 e-blasts can be found [HERE](#). (The ninth will be added next week when it is released)

What is Livestock Traceability? Find out more [HERE](#).

Need a copy of the Livestock Traceability Quick Tips? Get it [HERE](#).

Learn more about Premises Identification [HERE](#).

Information on tag positioning and retention can be found [HERE](#).

Find out more about tagging and identifying animals imported from the US [HERE](#).

[Traceability Workbook](#)

[Traceability Reference Manual](#)

Find your provincial coordinator [HERE](#).
